2. Five silver-gray jet fighters with swept-back wings and two single-engine, low-wing monoplanes with cockpits in tandem were parked in the southwestern corner of the landing field on 27 November. ** The hangar was open and empty. Individual flights with a single-engine, low-wing monoplane were made between 11:30 a.m. and 12:45 p.m. in occasional showers and wind velocity 5 Beaufort scale. The plane made six local flights, the take-offs and landings being conducted against the wind. Four take-offs and landings were then made in the opposite direction although the wind had not shifted.
